Adivasis, Migrants and the State in India Jagannath Ambagudia 2018-12-07 This book looks at the contested relationship between Adivasis or the indigenous peoples, migrants and the state in India. It delves into the nature and dynamics of competition and resource conflicts between the Adivasis and the migrants. Drawing on the ground experiences of the Dandakaranya Project – when Bengali migrants from erstwhile East Pakistan (now Bangladesh) were rehabilitated in eastern and central India – the author traces the connection between resource scarcity and the emergence of Naxalite politics in the region in tandem with the key role played by the state. He critically examines the way in which conflicts between these groups emerged and interacted, were shaped and realised through acts and agencies of various kinds, as well as their socio-economic, cultural and political implications. The book explores the contexts and reasons that have led to the dispossession, deprivation and marginalisation of Adivasis. Through rich empirical data, this book presents an in-depth analysis of a contemporary crisis. It will be useful to scholars and researchers of political studies, South Asian politics, Conflict Studies political sociology, cultural studies, sociology and social anthropology.

Communism in India Bidyut Chakrabarty 2014-09-23 In Communism in India, Bidyut Chakrabarty-an expert on contemporary Indian political economy and social movements-presents a sweeping analysis of the changing nature of communist ideology over the past century in India. The history and development of India's left movements are unique in that the country is home to two coexisting strands of modern communism. The first of these is the parliamentary Communist Party of India, which constituted the first democratically-elected Marxist government in the country. The parliamentary left subscribes to a social-democratic philosophy, turning to the traditional democratic institutions of governance in their quest to fulfill the Marxist-Leninist goal of establishing a classless society. The second, oppositional, strand is the revolutionary Maoist movement. This branch rejects parliamentary democracy as a means to altering class-relations, as they see the government as an elite organization dedicated to the status quo and age-old system of class exploitation. Drawing on ethnographic field work conducted in Orissa, Chhattisgarh and West Bengal, Chakrabarty provides a contextual account of the rise, consolidation, and decline of these two types of left radicalism. He looks at how it is that left ideology has coexisted with free-market-oriented economic policies, as well as the contexts in which more militant strands have taken root, particularly among the young in poorer districts.

The Land Question in India Anthony P. D'Costa 2017-03-31 This volume takes a fresh look at the land question in India. Instead of re-engaging in the rich transition debate in which the transformation of agriculture is seen as a necessary historical step to usher in dynamic capitalist (or socialist) development, this collection critically examines the centrality of land in contemporary development discourse in India. Consequently, the focus is on the role of the state in pushing a process of dispossession of peasants through direct expropriation for developmental purposes such as acquisition of land by (local) states for infrastructure development and to support accumulation strategies of private business through industrialization. Land in India is sought for non-agricultural purposes such as purchasing land to reduce risk and real estate development. Land is also central to tribal communities (adivasis), whose livelihoods depend on it and on a moral economy that is independent of any price-driven markets. Adivasis tend to hold on to such property, not as individual owners for profit, but for collective security and to protect a way of life. Thus land, notwithstanding its role in the accumulation process, has been, and continues to be, a turbulent arena in which classes, castes, and communities are in conflict with each other, with the state, and with capital, jockeying to determine the terms and conditions of land transactions or their prevention, through both market and non-market mechanisms. The volume goes beyond the traditional political economy of the agrarian transition question, and deals with, inter alia, distributional conflicts arising from acquisition of land by the state for capital accumulation on the one hand and its commodification on the other. It provides new analytical insights into the land acquisition processes, their legal-institutional and ethical implications, and the multifaceted regional diversity of acquisition experiences in India.
