*The Cigar Factory* Michele Moore 2016-02-09 Two women kept apart by segregation at a Southern cigar factory forge a powerful alliance in the labor rights movement in this historical novel. With evocative dialect and remarkable prose, *The Cigar Factory* tells the story of two entwined families—the white McGonegals and the African American Ravenels—in the storied port city of Charleston, South Carolina, during the World Wars. Moore's novel follows the parallel lives of family matriarchs working on segregated floors of the massive Charleston cigar factory, where white and black workers remain divided and misinformed about the duties and treatment received by each other. Cassie McGonegal and her niece Brigid work upstairs in the factory rolling cigars by hand. Meliah Amey Ravenel works in the basement, where she

stems the tobacco. While both suffer in the harsh working conditions of the factory and endure the sexual harassment of the foremen, segregation keeps them from recognizing their common plight until the Tobacco Workers Strike of 1945. Through the experience of a brutal picket line, the two women discover how much they stand to gain by joining forces, creating a powerful moment in labor history that gives rise to the Civil Rights anthem, "We Shall Overcome." Moore's historical research includes interviews with family members who worked at the cigar factory, adding nuance and authenticity to her empowering story of struggle, loss, and redemption. Foreword by New York Times best-selling author Pat Conroy Winner of the 2016 David J. Langum, Sr. Prize

**The College Chronicles** Kelly Owen 2014-07-15 *SLEEPING FEET FROM STRANGERS* is not a description Cadence Cooper remembers from the brochure that brought her to Charlestowne College, but this jarring reality becomes one of many she encounters during her freshman year. Threatened with expulsion from a "Demon of Darkness" professor and tormented by a hellacious roommate, Cadence struggles to survive in this realm of hookups and higher education. Here sex, drugs, and

drinking become subjects of study just as much as coursework. Just when she's ready to give up the dream of a college degree, she finds romance with a rock star classmate and a position as a student photographer. With her lens fixed on the campus and Charleston, a stunning city that teaches its own powerful lessons, Cadence uncovers the details of a devastating rape, a mysterious suicide, and a secret group intent on exposing a scandal that will forever change the school. Knowledge never comes without cost--or surprises. Life with strangers transforms into profound experiences with friends, foes, lovers, and liars in and out of the Holy City's classrooms. Cadence's first-year journey begins with "English 101: The Composition of Life," but where it ends shocks even her.

**Literary Mama** Andrea J. Buchanan 2009-11-10

Becoming a mother takes more than the physical act of giving birth or completing an adoption: it takes birthing oneself as a mother through

psychological, intellectual, and spiritual work that continues throughout life. Yet most women's stories of personal growth after motherhood tend to remain untold. As writers and mothers, Andrea Buchanan and Amy Hudock were frustrated by what they perceived as a lack of writing by mothers that captured the ambiguity, complexity, and humor of their experiences. So they decided to create the place they wanted to find, with the kind of writing they wanted to read. This unique collection features the best of the online magazine [literarymama.com](http://literarymama.com), a site devoted to mama-centric writing with fresh voices, superior craft, and vivid imagery. While the majority of literature on parenting is not literary or is not written by mothers, this book is both.

Including creative nonfiction, fiction, and poetry, Literary Mama celebrates the voices of the maternally inclined, paves the way for other writer mamas, and honors the difficult and rewarding work women do as they move into motherhood.

\*Describes the different classes of Roman gladiators and the armor and weaponry they used. \*Describes gladiatorial combat and the myths and misconceptions about the fight. \*Includes footnotes and a bibliography for further reading. "He vows to endure to be burned, to be bound, to be beaten, and to be killed by the sword." - The gladiator's oath, according to Petronius in the Satyricon. Gladiators are somewhat synonymous with ancient Rome, and even thousands of years after they performed on the sands, when people are asked about Roman culture, many think about and refer to the bloody spectacles of men fighting to the death in the arena. Gladiatorial combat is often regarded as barbaric, and most find it very difficult to comprehend how people could have enjoyed watching something so violent, but nevertheless, the spectacle still intrigues and fascinates people today, whether in movies like *Gladiator* or television shows about *Spartacus*. Gladiatorial combat traces its origins back to the early Republican period from the 5th-3rd century B.C., but it's still unclear where these combats first appeared. Credit has been given to both the Etruscans in northern Italy and the Campanians in southern Italy, though the first recorded gladiatorial combat occurred in the 3rd century B.C. at the funeral of D. Junius Brutus Pera. His sons organized a combat between three different pairs of gladiators who fought at their father's grave, but exactly what these first gladiatorial combats were supposed to represent remains unclear. Some believe that the spilling of human blood was a way of offering a sacrifice to the dead, while others suggest that the contests themselves were a funeral offering in honor of the dead. Gladiatorial combat began in the Republican period and was associated with death and burial, but due to its popularity it became an organized form of entertainment in the Imperial Age, and even as the gladiators were considered low class, they were also admired, leading to some Roman men and women

volunteering to become gladiators. Whatever the original role of gladiatorial combats, they thrilled Roman audiences for many centuries. Each match usually pitted one type of gladiator against a different type of gladiator, with each having their own kind of armor, weaponry and fighting style. For example, the retiarius was a gladiator that used a net, dagger and trident as his offensive weapons, while only wearing a protective guard over his left arm for protection. The retiarius would typically fight against the secutor, a gladiator armed with a sword, large shield, helmet and protective covering on his right arm and left leg. Therefore, a retiarius sacrificed armor for quickness in battle, while the secutor did the opposite. Although people often think of gladiators fighting to the death, the outcome of gladiatorial combats was not always fatal for one of the participants. If a gladiator fought well, the sponsor of the show could spare him, particularly if the crowd desired it. The fact that the outcome of matches was never the same and the crowd could help determine the result of the match certainly added to the Roman public's pleasure, making it a lot less surprising that such an abhorrent spectacle still fascinated the modern world. *The Roman Gladiators: The History and Legacy of Ancient Rome's Most Famous Warriors* examines the history of the gladiators and the games they participated in, explaining what life and death was like for the men who fought in Rome's most famous form of entertainment. Along with pictures depicting important people, places, and events, you will learn about gladiators like you

never have before.
