La città rituale Maria Antonietta

Roma, in età moderna, il cerimoniale riflette al contempo la complessità e la duplicità del potere papale, spirituale e temporale. Il cerimoniale regola le feste strettamente religiose, quelle scandite dal calendario liturgico annuale, e gli eventi ricorrenti, come l'apertura delle Porte sante per il Giubileo o i riti d'interregno. Le grandi occasioni

rituali relative alla persona del pontefice (elezione, incoronazione, possesso, esequie) presentano una loro marcata specificità ma evolvono anche in coerenza con i riti di sovranità dei monarchi e principi europei. Assume, inoltre, importanza crescente la regolamentazione dello svolgimento degli eventi di particolare rilievo politico, come il ricevimento degli ambasciatori o il conferimento di dignità ai principi cattolici. Dopo la cesura determinata dalla Riforma protestante, negli anni successivi al Concilio di Trento il papato riacquista autorità e prestigio e il cerimoniale diviene esaltazione – anche a livello simbolico e nella sua dimensione “teatrale” – del ruolo internazionale della Sede

Apostolica. Il tema – finora poco indagato dalla storiografia su Roma, a differenza di quanto è stato fatto per altre realtà italiane ed europee – viene esaminato evidenziando l'interazione tra il papa-sovrano e la sua città.

Film Festivals Marijke de Valck 2016-02-26 The last decade has witnessed an explosion of interest in film festivals, with the field growing to a position of prominence within the space of a

few short years. *Film Festivals: History, Theory, Method, Practice* represents a major addition to the literature on this topic, offering an authoritative and comprehensive introduction to the area. With a combination of chapters specifically examining history, theory, method and practice, it offers a clear structure and systematic approach for the study of film festivals. Offering a collection of essays written by an international range of established scholars, it discusses well-known film festivals in Europe, North America and Asia, but equally devotes attention to the diverse range of smaller and/or specialized events that take place around the globe. It provides essential knowledge on the origin and development of film festivals, discusses the use of theory to study festivals, explores the methods of ethnographic and archival research, and looks closely at the professional practice of programming and film

funding. Each section, moreover, is introduced by the editors, and all chapters include useful suggestions for further reading.

This will be an essential textbook for students studying film festivals as part of their film, media and cultural studies courses, as well as a strong research tool for scholars that wish to familiarize themselves with this burgeoning field.

The Investiture Controversy

Uta-Renate Blumenthal

2010-08-03 "This book describes the roots of a set of ideals that effected a radical transformation of eleventh-century European society that led to the confrontation between church and monarchy known as the investiture struggle or Gregorian reform. Ideas cannot be divorced from reality, especially not in the Middle Ages. I present them, therefore, in their contemporary political, social, and cultural context."—from the Preface

Tanegashima - The Arrival of Europe in Japan Olof G. Lidin

2003-12-16 The year 1543

marked the beginning of a new global consciousness in Japan with the arrival of shipwrecked Portuguese merchants on Tanegashima Island in southern Japan. Other Portuguese soon followed and Japan became aware of a world beyond India. After the merchants came the first missionary Francis Xavier in 1549, beginning the Christian century in Japan. This is not a new story, but it is the first time that Japanese, Portuguese and other European accounts have been brought together and presented in English. Their arrival was recorded by the Japanese in Tanegashima kafu, the Teppoki and the Kunitomo teppoki, here translated and presented together with European reports. Includes maps, and Portuguese and Japanese illustrations.

Renaissance Diplomacy Garrett Mattingly 2017-06-28 Modern diplomacy began in the fifteenth century when the Italian city-states established resident embassies at the courts of their neighbors. By the sixteenth century, the forms and techniques of the new continuing diplomacy had spread northward to be further developed by the emerging European powers. "The new Italian institution of permanent diplomacy was drawn into the service of the rising nation-states. and served, like the standing

army of which it was the counterpart, at once to nourish their growth and foster their idolatry. It still serves them and must go on doing so as long as nation-states survive.” Garrett Mattingly, author of *Catherine of Aragon* and *The Armada*, here tells the story of Western diplomacy in its formative period and explains the evolution of the diplomat’s function. His able and lively discussion also forms, in effect, a history of Western Europe from an entirely fresh point of view. “Garrett Mattingly develops his theme with historical skill, a sense of the relevance of his subject to modern problems, and a literary grace all too rare in works of serious scholarship.”-New York Herald Tribune “An important book...carefully and elegantly written.”-Times Literary Supplement “Presents the many facets of a highly complex subject in a way which is as readable as it is scholarly.”-American

Historical Review “A remarkable book: bold, scholarly and original, it will appeal equally to the expert and to the historically-minded general reader.”-New Statesman and Nation

Translation and Transmission
Jaakko Hameen-Anttila
2018-12-31 This collection of papers originates with a workshop held 24-25 September 2015 in Villa Lante al Gianicolo, Rome. The workshop brought together a number of scholars

working in the fields Arabic Studies, Greek and Latin Studies, Septuaginta Studies, and Iranian Studies. The workshop concentrated on the transmission of texts and ideas across language barriers in the Eastern Mediterranean. The main focus was on literary and historical texts, but also scientific, pseudoscientific, and religious texts were discussed. The workshop and the resulting collection of articles shows clearly that there is still much to do in the field of translation studies in the Long Late Antiquity and the Middle Ages. The various cultures around the Mediterranean have always lived in close contact with each other, and translation of texts has played a central role in the intellectual interaction of these cultures. While parts of this interaction have received scholarly attention, others have been almost neglected. The aim of this volume is to direct attention to

the manifold and vivid culture of translation around the Mediterranean.

Dagon H. P. Lovecraft 2020-09-02

The man is addicted to morphine, and can think of nothing but death. Only morphine has made his life barely tolerable. He is in this fragile mental state because of the things that happened in the past; because of the things he was forced to encounter. During the First World War he ended up alone on an island – an island that was pure horror. ‘Dagon’ is a horror short story written by H.

P. Lovecraft. It was first published in 1917. H.P. Lovecraft (1890–1937) was an American horror writer. His best known works include ‘The Call of Cthulhu’ and ‘the Mountains of Madness’. Most of his work was originally published in pulp magazines, and Lovecraft rose into fame only after his death at the age of 46. He has had a great influence in both horror and science fiction genres.
