In 2014, every baby boomer will have reached the milestone age of fifty. For most, it’s not an end, but the beginning of something new. How to Live Forever Marc Freedman 2018-11-20 Using this helpful book, learn how the secret to

happiness and longevity can be found through mentoring the next generation. In *How to Live Forever*, Encore.org founder and CEO Marc Freedman tells the story of his thirty-year quest to answer some of contemporary life's most urgent questions: With so many living so much longer, what is the meaning of the increasing years beyond 50? How can a society with more older people than younger ones thrive? How do we find happiness when we know life is long and time is short? In a poignant book that defies categorization, Freedman finds insights by exploring purpose and generativity, digging into the drive for longevity and the perils of age segregation, and talking to social innovators across the globe bringing the generations together for mutual benefit. He finds wisdom in stories from young and old, featuring ordinary people and icons like jazz great Clark Terry and basketball legend Kareem Abdul-Jabbar. But the answers also come from stories of Freedman's own mentors—a sawmill worker turned surrogate grandparent, a university administrator who served as Einstein's driver, a cabinet secretary who won the Presidential Medal of Freedom, and the gym teacher who was Freedman's father. *How to Live Forever* is a deeply personal call to find fulfillment and happiness in our longer lives by connecting with the next generation and forging a legacy of love that lives beyond us.

Flipping a Switch: Your Guide to Happiness and Financial Security in Later Life Barbara O'Neill 2020-07-30 Leaving full-time employment to enter retirement often requires a 180-degree change—in mindset and behavior—from the way you managed your time and money previously. This is especially true for Baby Boomers who may have never experienced adult life without a full-time job and have been practicing the same habits since their 20s. These life transitions can be looked at as if they require “flipping a switch.” Some changes happen suddenly like an on/off switch, while others happen over time like a “dimmer switch”. Some “switches” are voluntary like spending accumulated savings, while some are mandatory like taking required minimum distributions starting at age 72. And to make matters more confusing, there are also lifestyle and social changes to consider as well. Flipping a Switch discusses 35 financial, lifestyle, and social transitions you'll encounter upon entering retirement, including: • Full-time work to new pastimes • Saving money to spending money • Receiving a paycheck to creating a “paycheck” • Funding retirement savings plans to taking required minimum distribution withdrawals • Accumulating possessions to downsizing Everyone has unique “switches” to flip. Flipping a Switch: Your Guide to Happiness and Financial Security in Later Life offers important information and guidance new retirees need before undertaking their new life. Each chapter includes a “How to Flip This Switch” section with suggested action steps. Nationally known speaker, author, and Certified Financial Planner® Dr. Barbara O'Neill will help you develop a plan to become your best future self.

What Retirees Want Ken Dychtwald 2021-11-24 "Dychtwald and Morison offer a brilliant and convincing perspective: an essential re-think of what 'aging' and 'retirement' mean today and an invitation to help mobilize the best in the tidal wave of Boomer Third Agers." —Daniel Goleman, PhD, Author, *Emotional Intelligence: Why It Can Matter More Than IQ* Throughout 99 percent of human history, life expectancy at birth was less than 18 years. Few people had a chance to age. Today, thanks to extraordinary medical, demographic, and economic shifts, most of us expect to live long lives. Consequently, the world is witnessing a powerful new version of retirement, driven by the power and needs of the Baby Boomer generation. Consumers over age 50 account for more than half of all spending and control more than 70% of our total net worth - yet are largely ignored by youth-focused marketers. How will work, family, and retirement be transformed to accommodate two billion people over the age of 60 worldwide? In the coming years, we'll see explosive business growth fueled by this unprecedented longevity revolution. *What Retirees Want* presents the culmination of 30 years of research by world-famous "Age Wave" expert Ken Dychtwald, Ph.D., and author and consultant Robert Morison. It explains how the aging of the Baby Boomers will forever change our lives, businesses, government programs, and the consumer marketplace. This exciting new stage of life, the "Third Age," poses daunting questions: What will "old" look like in the years ahead? With continued advances in longevity, all of the traditional life-stage markers and boundaries will need to be adjusted. What new products and services will boom as a result of this coming longevity revolution? What unconscious ageist marketing practices are hurting people - and business growth? Will the majority of elder boomers outlive their pensions and retirement savings and how can this financial disaster be prevented? What incredible new technologies of medicine, life extension, and human enhancement await us in the near future? What purposeful new roles can we create for elder boomers so that the aging nations of the Americas, Europe, and Asia capitalize on the upsides of aging? Which pioneering organizations and companies worldwide have created marketing strategies and programs that resonate with the quirky and demanding Boomer generation?
