You may not be perplexed to enjoy every books collections Richard Iii Penguin Monarchs A Failed King that we will definitely offer. It is not on the costs. Its not quite what you craving currently. This Richard Iii Penguin Monarchs A Failed King, as one of the most dynamic sellers here will definitely be along with the best options to review.

John (Penguin Monarchs) Nicholas Vincent 2020-07-30 King John ruled England for seventeen and a half years, yet his entire reign is usually reduced to one image: of the villainous monarch outmanoeuvred by rebellious barons into agreeing to Magna Carta at Runnymede in 1215. Ever since, John has come to be seen as an archetypal tyrant. But how evil was he? In this perceptive short account, Nicholas Vincent unpicks John's life through his deeds and his personality. The youngest of four brothers, overlooked and given a distinctly unroyal name, John seemed doomed to failure. As king, he was reputedly cruel and treacherous, pursuing his own interests at the expense of his country, losing the continental empire bequeathed to him by his father Henry and his brother Richard and eventually plunging England into civil war. Only his lordship of Ireland showed some success. Yet, as this fascinating biography asks, were his crimes necessarily greater than those of his ancestors - or was he judged more harshly because, ultimately, he failed as a warlord?
James I (Penguin Monarchs) Thomas Cogswell 2017-12-07 James's reign marked one of the very rare major breaks in England's monarchy. Already James VI of Scotland and a highly experienced ruler who had established his authority over the Scottish Kirk, he marched south on Elizabeth I's death to become James I of England and Ireland, uniting the British Isles for the first time and founding the Stuart dynasty which would, with several lurches, reign for over a century. Indeed his descendant still occupies the throne. A complex, curious man and great

survivor, James drastically changed court life in London and presided over such major projects as the Authorized Version of the Bible and the establishment of English settlements in Virginia, Massachusetts, Gujarat and the Caribbean. Although he failed to unite England and Scotland, he insisted that ambassadors acknowledge him as King of Great Britain and that vessels from both countries display a version of the current Union Flag. He was often accused of being too informal and insufficiently regal - but when his son, Charles I, decided to redress these criticisms in his own reign he was destroyed. How much of the roots of this disaster were to be found in James's reign is one of the many problems dramatized in Thomas Cogswell's brilliant and highly entertaining new book.

Aethelred the Unready Richard Abels 2018-09-25 Richard Abels examines the long and troubled reign of Aethelred II the "Unraed," the "Ill-Advised." It is characteristic of Aethelred's reign that its greatest surviving work of literature, the poem *The Battle of Maldon*, should be a record of heroic defeat. Perhaps no ruler could have stemmed the encroachment of wave upon wave of Viking raiders, but Aethelred will always be associated with that failure.

Mystifying the Monarch Jeroen Deploige 2006 The power of monarchs has traditionally been as much symbolic as actual, rooted in popular imagery of sovereignty, divinity, and authority. In *Mystifying the Monarch*, a distinguished group of contributors explores the changing nature of that imagery—and its political and social effects—in Europe from the Middle Ages to the present day. They demonstrate that, rather than a linear

progression where perceptions of rulers moved inexorably from the sacred to the banal, in reality the history of monarchy has been one of constant tension between mystification and demystification.

Richard III Sean Cunningham 2003-03-31 Richard III: villain or hero? He was only on the throne for just over two years, yet Richard is probably the most controversial monarch in British history: to some a hunchbacked schemer, usurper and murderer of the 'princes in the Tower', to others a very capable and much maligned ruler. Now you can judge for yourself. Surviving documents from his reign, including letters in Richard's own hand and extracts from official papers, are reproduced here from the 500-year-old originals. Each key document is beautifully reproduced in a double-page spread which also includes an extended contextualising caption and a modern transcription where necessary. The original sources are woven together by a brief narrative history of the reign, fully illustrated in colour with portraits, photographs and other material from the archives. Featured documents include: * Letter from Richard to his mother, 1484 * Richard's official justification for taking the throne, 1484 proclamation against Henry Tudor, 1485 * Richard's letter to the Lord Chancellor requesting the Great Seal 1483

Anne Richard Hewlings 2021-09-28 The Last King of America Andrew Roberts 2021-11-09 From the New York Times bestselling author of Churchill and Napoleon The last king of America, George III, has been ridiculed as a complete disaster who frittered away the colonies and went mad in his old age. The truth is much more nuanced and fascinating--and will completely change the way readers and historians view his reign and legacy. Most Americans dismiss George III as a buffoon--a heartless and terrible monarch with few, if any, redeeming qualities. The best-known modern interpretation of him is Jonathan Groff's preening, spitting, and pompous take in Hamilton, Lin-Manuel Miranda's Broadway masterpiece. But this deeply unflattering characterization is rooted in the prejudiced and brilliantly persuasive opinions of eighteenth-century revolutionaries like Thomas Paine and Thomas Jefferson, who needed to make the king appear evil in order to achieve their own political aims. After combing

through hundreds of thousands of pages of never-before-published correspondence, award-winning historian Andrew Roberts has uncovered the truth: George III was in fact a wise, humane, and even enlightened monarch who was beset by talented enemies, debilitating mental illness, incompetent ministers, and disastrous luck. In The Last King of America, Roberts paints a deft and nuanced portrait of the much-maligned monarch and outlines his accomplishments, which have been almost universally forgotten. Two hundred and forty-five years after the end of George III's American rule, it is time for Americans to look back on their last king with greater understanding: to see him as he was and to come to terms with the last time they were ruled by a monarch.

Edward II Christopher Given-Wilson 2016-09-29 'He seems to have laboured under an almost child-like misapprehension about the size of his world. Had greatness not been thrust upon him, he might have lived a life of great harmlessness.' The reign of Edward II was a succession of disasters. Unkingly, inept in war, and in thrall to favourites, he preferred digging ditches and rowing boats to the tedium of government. His infatuation with a young Gascon nobleman, Piers Gaveston, alienated even the most natural supporters of the crown. Hoping to lay the ghost of his soldierly father, Edward I, he invaded Scotland and suffered catastrophic defeat at the Battle of Bannockburn. After twenty ruinous years, betrayed and abandoned by most of his nobles and by his wife and her lover, Edward was imprisoned in Berkeley Castle and murdered - the first English king since the Norman Conquest to be deposed.

Richard III David Baldwin 2015-04-15 New edition of the bestselling biography of the controversial king whose bones were discovered in a car park in 2012. Contains NEW material, including an account of the reburial in March 2015.

Henry IV (Penguin Monarchs) Catherine Nall 2023-04-27 When Henry IV seized the throne from his cousin Richard II, people saw it as a hopeful new beginning for England. The first monarch to have English as his mother tongue since the Norman conquest, Henry seemed to embody the ideals of chivalric kingship: mercy, piety, military prowess and learning. Yet deposing a crowned monarch was not a stable

foundation on which to build a reign. Henry IV found himself challenged from all sides, plagued by conspiracies, rebellions, assassination attempts, and crippling debts, while his tense relationships with parliament and with his own son, Shakespeare's Prince Hal, saw his grip on power falter. Nevertheless, he was the first king and founder of a Lancastrian dynasty which would go on to shape England for centuries to come. In this lively study, Catherine Nall reappraises a monarch who weathered upheaval and uncertainty and held on to the throne through sheer force of will.

King Lear William Shakespeare 2020-11-09 *King Lear* is a tragedy by Shakespeare, written about 1605 or 1606. Shakespeare based it on the legendary King Leir of the Britons, whose story is outlined in Geoffrey of Monmouth's pseudohistorical *History of the Kings of Britain* (written in about 1136). The play tells the tale of the aged King Lear who is passing on the control of his kingdom to his three daughters. He asks each of them to express their love for him, and the first two, Goneril and Regan do so effusively, saying they love him above all things. But his youngest daughter, Cordelia, is compelled to be truthful and says that she must reserve some love for her future husband. Lear, enraged, cuts her off without any inheritance. The secondary plot deals with the machinations of Edmund, the bastard son of the Earl of Gloucester, who manages to convince his father that his legitimate son Edgar is plotting against him. After Lear steps down from power, he finds that his elder daughters have no real respect or love for him, and treat him and his followers as a nuisance. They allow the raging Lear to wander out into a storm, hoping to be rid of him, and conspire with Edmund to overthrow the Earl of Gloucester. The play is a moving study of the perils of old age and the true meaning of filial love. It ends tragically with the deaths of both Cordelia and Lear—so tragically, in fact, that performances during the Restoration period sometimes substituted a happy ending. In modern times, though, *King Lear* is performed as written and generally regarded as one of Shakespeare's best plays. This Standard Ebooks edition is based on William George Clark and William Aldis Wright's 1887 Victoria edition, which is taken from the Globe edition. This book

is part of the Standard Ebooks project, which produces free public domain ebooks.

Henry VII (Penguin Monarchs) Sean Cunningham 2023-03-30 Part of the Penguin Monarchs series: short, fresh, expert accounts of England's rulers in a collectible format Henry VII was one of England's unlikeliest monarchs. An exile and outsider with barely a claim to the throne, his victory over Richard III at Bosworth Field seemed to many in 1485 only the latest in the sequence of violent convulsions among England's nobility that would come to be known as the Wars of the Roses - with little to suggest that the obscure Henry would last any longer than his predecessor. To break the cycle of division, usurpation, deposition and murder, he had both to maintain a grip on power and to convince England that his rule was both rightful and effective. Here, Sean Cunningham explores how, in his ruthless and controlling kingship, Henry VII did so, in the process founding the Tudor dynasty.

Athelstan (Penguin Monarchs) Tom Holland 2016-06-30 The formation of England occurred against the odds: an island divided into rival kingdoms, under savage assault from Viking hordes. But, after King Alfred ensured the survival of Wessex and his son Edward expanded it, his grandson Athelstan inherited the rule of both Mercia and Wessex, conquered Northumbria and was hailed as *Rex totius Britanniae*: 'King of the whole of Britain'. Tom Holland recounts this extraordinary story with relish and drama, transporting us back to a time of omens, raven harbingers and blood-red battlefields. As well as giving form to the figure of Athelstan - devout, shrewd, all too aware of the precarious nature of his power, especially in the north - he introduces the great figures of the age, including Alfred and his daughter Aethelflaed, 'Lady of the Mercians', who brought Athelstan up at the Mercian court. Making sense of the family rivalries and fractious conflicts of the Anglo-Saxon rulers, Holland shows us how a royal dynasty rescued their kingdom from near-oblivion and fashioned a nation that endures to this day.

Edward IV, 1461-1483 A. J. Pollard 2019-04-25 In 1461 Edward earl of March, an able, handsome, and charming eighteen-year old, usurped the English throne from his feeble Lancastrian predecessor Henry VI. Ten years on, following

outbreaks of civil conflict that culminated in him losing, then regaining the crown, he had finally secured his kingdom. The years that followed witnessed a period of rule that has been described as a golden age- a time of peace and economic and industrial expansion, which saw the establishment of a style of monarchy that the Tudors would later develop. Yet, argues A. J. Pollard, Edward, who was drawn to a life of sexual and epicurean excess, was a man of limited vision, his reign remaining to the very end the narrow rule of a victorious faction in civil war. Ultimately, his failure was dynastic- barely two months after his death in April 1483, the throne was usurped by Edward's youngest brother, Richard III.

Richard III (Penguin Monarchs) Rosemary Horrox 2019-08 Part of the Penguin Monarchs series- short, fresh, expert accounts of England's rulers in a collectible format.

Aethelred the Unready (Penguin Monarchs)

Richard Abels 2018-10-25 A major new title in the Penguin Monarchs series In his fascinating new book in the Penguin Monarchs series, Richard Abels examines the long and troubled reign of Aethelred II the 'Unraed', the 'Ill-Advised'. It is characteristic of Aethelred's reign that its greatest surviving work of literature, the poem The Battle of Maldon, should be a record of heroic defeat. Perhaps no ruler could have stemmed the encroachment of wave upon wave of Viking raiders, but Aethelred will always be associated with that failure. Richard Abels is Professor Emeritus at the United States Naval Academy. He is the author of Alfred the Great: War, Kingship and Culture in Anglo-Saxon England and Lordship and Military Obligation in Anglo-Saxon England. He is a Fellow of the Royal Historical Society.

Richard III Rosemary Horrox 1991-03-14 A detailed study of the role of the king's servants, before and during Richard's reign, explores the practical aspects of obedience, as well as the structure of service relationships and the late medieval client systems.

Richard II Nigel Saul 2008-10-01 Richard II is one of the most enigmatic of English kings. Shakespeare depicted him as a tragic figure, an irresponsible, cruel monarch who nevertheless rose in stature as the substance of power slipped from him. By later writers he has been variously

portrayed as a half-crazed autocrat or a conventional ruler whose principal errors were the mismanagement of his nobility and disregard for the political conventions of his age. This book—the first full-length biography of Richard in more than fifty years—offers a radical reinterpretation of the king. Nigel Saul paints a picture of Richard as a highly assertive and determined ruler, one whose key aim was to exalt and dignify the crown. In Richard's view, the crown was threatened by the factiousness of the nobility and the assertiveness of the common people. The king met these challenges by exacting obedience, encouraging lofty new forms of address, and constructing an elaborate system of rule by bonds and oaths. Saul traces the sources of Richard's political ideas and finds that he was influenced by a deeply felt orthodox piety and by the ideas of the civil lawyers. He shows that, although Richard's kingship resembled that of other rulers of the period, unlike theirs, his reign ended in failure because of tactical errors and contradictions in his policies. For all that he promoted the image of a distant, all-powerful monarch, Richard II's rule was in practice characterized by faction and feud. The king was obsessed by the search for personal security: in his subjects, however, he bred only insecurity and fear. A revealing portrait of a complex and fascinating figure, the book is essential reading for anyone with an interest in the politics and culture of the English middle ages.

William II (Penguin Monarchs) John Gillingham 2015-08-27 William II (1087-1100), or William Rufus, will always be most famous for his death: killed by an arrow while out hunting, perhaps through accident or perhaps murder. But, as John Gillingham makes clear in this elegant book, as the son and successor to William the Conqueror it was William Rufus who had to establish permanent Norman rule. A ruthless, irascible man, he frequently argued acrimoniously with his older brother Robert over their father's inheritance - but he also handed out effective justice, leaving as his legacy one of the most extraordinary of all medieval buildings, Westminster Hall.

George III (Penguin Monarchs) Jeremy Black 2021-12-02

Henry I (Penguin Monarchs) Edmund King 2018-07-26 'To be a medieval king was a job of

work ... This was a man who knew how to run a complex organization. He was England's CEO' The youngest of William the Conqueror's sons, Henry I came to unchallenged power only after two of his brothers died in strange hunting accidents and he had imprisoned the other. He was destined to become one of the greatest of all medieval monarchs, both through his own ruthlessness, and through his dynastic legacy. Edmund King's engrossing portrait shows a strikingly charismatic, intelligent and fortunate man, whose rule was looked back on as the real post-conquest founding of England as a new realm: wealthy, stable, bureaucratized and self-confident.

Henry VII (Penguin Monarchs) Sean Cunningham 2019-06-27 Part of the Penguin Monarchs series: short, fresh, expert accounts of England's rulers in a collectible format Henry VII was one of England's unlikeliest monarchs. An exile and outsider with barely a claim to the throne, his victory over Richard III at Bosworth Field seemed to many in 1485 like only the latest in the sequence of violent convulsions among England's nobility that would come to be known as the wars of the roses - with little to suggest that the obscure Henry would last any longer than his predecessor. To break that cycle of division, usurpation, deposition and murder, he had both to maintain a grip on power and to convince England that his rule was both rightful and effective. Here, Sean Cunningham explores how, in his ruthless, controlling and personal kingship, Henry VII did so; in the process founding the Tudor dynasty and, arguably, helping to lay the foundations for modern government. Sean Cunningham is a Principal Records Specialist at The National Archives. A Fellow of the Royal Historical Society, he has published widely on late medieval and early Tudor England. His books include, most recently, a historical biography of Henry VII.

Henry VI James Ross 2016-08-23 Succeeding to the throne at the age of only nine months, Henry VI had a turbulent reign: he inherited a war with France and, in time, found himself at war with his own nobles. James Ross surveys this eventful life, including Henry's deposition at the hands of Edward IV and his eventual return to the throne.

Edward the Confessor (Penguin Monarchs) David Woodman 2020-11-26 Edward the

Confessor, the last great king of Anglo-Saxon England, canonized nearly 100 years after his death, is in part a figure of myths created in the late middle ages. In this revealing portrait of England's royal saint, David Woodman traces the course of Edward's twenty-four-year-long reign through the lens of contemporary sources, from the Anglo-Saxon Chronicle and the Vita Ædwardi Regis to the Bayeux Tapestry, to separate myth from history and uncover the complex politics of his life. He shows Edward to be a shrewd politician who, having endured a long period of exile from England in his youth, ascended the throne in 1042 and came to control a highly sophisticated and powerful administration. The twists and turns of Edward's reign are generally seen as a prelude to the Norman Conquest in 1066. Woodman explains clearly how events unfolded and personalities interacted but, unlike many, he shows a capable and impressive king at the centre of them.

Edward IV (Penguin Monarchs) A J Pollard 2016-07-28 In 1461 Edward earl of March, an able, handsome, and charming eighteen-year old, usurped the English throne from his feeble Lancastrian predecessor Henry VI. Ten years on, following outbreaks of civil conflict that culminated in him losing, then regaining the crown, he had finally secured his kingdom. The years that followed witnessed a period of rule that has been described as a golden age: a time of peace and economic and industrial expansion, which saw the establishment of a style of monarchy that the Tudors would later develop. Yet, argues A. J. Pollard, Edward, who was drawn to a life of sexual and epicurean excess, was a man of limited vision, his reign remaining to the very end the narrow rule of a victorious faction in civil war. Ultimately, his failure was dynastic: barely two months after his death in April 1483, the throne was usurped by Edward's youngest brother, Richard III.

Edward III (Penguin Monarchs) Jonathan Sumption 2016-05-26 Edward III lived through bloody and turbulent times. His father was deposed by his mother and her lover when he was still a teenager; a third of England's population was killed by the Black Death midway through his reign; and the intractable Hundred Years War with France began under his leadership. Yet Edward managed to rule England

for fifty years, and was viewed as a paragon of kingship in the eyes of both his contemporaries and later generations. Venerated as the victor of Sluys and Crécy and the founder of the Order of the Garter, he was regarded with awe even by his enemies. But he lived too long, and was ultimately condemned to see thirty years of conquests reversed in less than five. In this gripping new account of Edward III's rise and fall, Jonathan Sumption introduces us to a fêted king who ended his life a heroic failure.

Edward III, 1327-1377 Jonathan Sumption
2018-06 The acclaimed Penguin Monarchs series: short, fresh, expert accounts of England's rulers - now in paperback Edward III ruled England for fifty years. He was a paragon of kingship in the eyes of his contemporaries, the perfect king in those of later generations. Venerated as the victor of Sluys and Crécy and the founder of the Order of the Garter, he was regarded with awe even by his enemies. But he lived too long, and was ultimately condemned to see thirty years of conquests reversed in less than five. In this gripping new account of Edward III's rise and fall, Jonathan Sumption introduces us to a fêted king who ended his life a heroic failure. Jonathan Sumption is a former history fellow of Magdalen College Oxford. He is the author of Pilgrimage and The Albigensian Crusade, as well as the first four volumes in his celebrated history of the Hundred Years War, Trial by Battle, Trial by Fire, Divided Houses and Cursed Kings. He was awarded the 2009 Wolfson History Prize for Divided Houses.

Richard III (Penguin Monarchs) Rosemary Horrox
2020-09-24 No English king has so divided opinion, both during his reign and in the centuries since, more than Richard III. He was loathed in his own time for the never-confirmed murder of his young nephews, the Princes in the Tower, and died fighting his own subjects on the battlefield. This is the vision of Richard we have inherited from Shakespeare. Equally, he inspired great loyalty in his followers. In this enlightening, even-handed study, Rosemary Horrox builds a complex picture of a king who by any standard failed as a monarch. He was killed after only two years on the throne, without an heir, and brought such a decisive end to the House of York that Henry Tudor was able to seize the throne, despite his extremely tenuous claim. Whether Richard

was undone by his own fierce ambitions, or by the legacy of a Yorkist dynasty which was already profoundly dysfunctional, the end result was the same: Richard III destroyed the very dynasty that he had spent his life so passionately defending.
George IV (Penguin Monarchs) Stella Tillyard
2019-07-04 George IV spent most of his life waiting to become king: as a pleasure-loving and rebellious Prince of Wales during the sixty-year reign of his father, George III, and for ten years as Prince Regent, when his father went mad. 'The days are very long when you have nothing to do' he once wrote plaintively, but he did his best to fill them with pleasure - women, art, food, wine, fashion, architecture. He presided over the creation of the Regency style, which came to epitomise the era, and he was, with Charles I, the most artistically literate of all our kings. Yet despite his life of luxury and indulgence, George died alone and unmourned. Stella Tillyard has not written a judgemental book, but a very human and enjoyable one, about this most colourful of all British kings.

The Making of Modern Britain Andrew Marr
2009-10-02 In The Making of Modern Britain, Andrew Marr paints a fascinating portrait of life in Britain during the first half of the twentieth century as the country recovered from the grand wreckage of the British Empire. Between the death of Queen Victoria and the end of the Second World War, the nation was shaken by war and peace. The two wars were the worst we had ever known and the episodes of peace among the most turbulent and surprising. As the political forum moved from Edwardian smoking rooms to an increasingly democratic Westminster, the people of Britain experimented with extreme ideas as they struggled to answer the question 'How should we live?' Socialism? Fascism? Feminism? Meanwhile, fads such as eugenics, vegetarianism and nudism were gripping the nation, while the popularity of the music hall soared. It was also a time that witnessed the birth of the media as we know it today and the beginnings of the welfare state. Beyond trenches, flappers and Spitfires, this is a story of strange cults and economic madness, of revolutionaries and heroic inventors, sexual experiments and raucous stage heroines. From organic food to drugs, nightclubs and celebrities to package holidays, crooked bankers to sleazy politicians,

the echoes of today's Britain ring from almost every page.

Henry III (Penguin Monarchs) Stephen Church
2017-01-26 Henry III was a medieval king whose long reign continues to have a profound impact on us today. He was on the throne for 56 years and during this time England was transformed from being the private play-thing of a French speaking dynasty into a medieval state in which the king answered for his actions to an English parliament, which emerged during Henry's lifetime. Despite Henry's central importance for the birth of parliament and the development of a state recognisably modern in many of its institutions, it is Henry's most vociferous opponent, Simon de Montfort, who is in many ways more famous than the monarch himself. Henry is principally known today as the driving force behind the building of Westminster Abbey, but he deserves to be better understood for many reasons - as Stephen Church's sparkling account makes clear. Part of the Penguin Monarchs series: short, fresh, expert accounts of England's rulers in a highly collectible format

Stephen (Penguin Monarchs) Carl Watkins
2015-08-27 Known as 'the anarchy', the reign of Stephen (1135-1141) saw England plunged into a civil war that illuminated the fatal flaw in the powerful Norman monarchy, that without clear rules ordering succession, conflict between members of William the Conqueror's family were inevitable. But there was another problem, too: Stephen himself. With the nobility of England and Normandy anxious about the prospect of a world without the tough love of the old king Henry I, Stephen styled himself a political panacea, promising strength without oppression. As external threats and internal resistance to his rule accumulated, it was a promise he was unable to keep. Unable to transcend his flawed claim to the throne, and to make the transition from nobleman to king, Stephen's actions betrayed uneasiness in his role, his royal voice never quite ringing true. The resulting violence that spread throughout England was not, or not only, the work of bloodthirsty men on the make. As Watkins shows in this resonant new portrait, it arose because great men struggled to navigate a new and turbulent kind of politics that arose when the king was in eclipse.

Richard I (Penguin Monarchs) Thomas Asbridge

2018-02-22 Richard I's reign is both controversial and seemingly contradictory. One of England's most famous medieval monarchs and a potent symbol of national identity, he barely spent six months on English soil during a ten-year reign and spoke French as his first language.

Contemporaries dubbed him the 'Lionheart', reflecting a carefully cultivated reputation for bravery, prowess and knightly virtue, but this supposed paragon of chivalry butchered close to 3,000 prisoners in cold blood on a single day. And, though revered as Christian Europe's greatest crusader, his grand campaign to the Holy Land failed to recover the city of Jerusalem from Islam. Seeking to reconcile this conflicting evidence, Thomas Asbridge's incisive reappraisal of Richard I's career questions whether the Lionheart really did neglect his kingdom, considers why he devoted himself to the cause of holy war and asks how the memory of his life came to be interwoven with myth. Richard emerges as a formidable warrior-king, possessed of martial genius and a cultured intellect, yet burdened by the legacy of his dysfunctional dynasty and obsessed with the pursuit of honour and renown.

Henry V (Penguin Monarchs) Anne Curry
2015-08-27 Foremost medieval historian Anne Curry offers a new reinterpretation of Henry V and the battle that defined his kingship: Agincourt Henry V's invasion of France, in August 1415, represented a huge gamble. As heir to the throne, he had been a failure, cast into the political wilderness amid rumours that he planned to depose his father. Despite a complete change of character as king - founding monasteries, persecuting heretics, and enforcing the law to its extremes - little had gone right since. He was insecure in his kingdom, his reputation low. On the eve of his departure for France, he uncovered a plot by some of his closest associates to remove him from power. Agincourt was a battle that Henry should not have won - but he did, and the rest is history. Within five years, he was heir to the throne of France. In this vivid new interpretation, Anne Curry explores how Henry's hyperactive efforts to expunge his past failures, and his experience of crisis - which threatened to ruin everything he had struggled to achieve - defined his kingship, and how his astonishing success at Agincourt

transformed his standing in the eyes of his contemporaries, and of all generations to come.

Edward II (Penguin Monarchs) Christopher Given-Wilson 2016-09-29 'He seems to have laboured under an almost child-like misapprehension about the size of his world. Had greatness not been thrust upon him, he might have lived a life of great harmlessness.' The reign of Edward II was a succession of disasters. Unkingly, inept in war, and in thrall to favourites, he preferred digging ditches and rowing boats to the tedium of government. His infatuation with a young Gascon nobleman, Piers Gaveston, alienated even the most natural supporters of the crown. Hoping to lay the ghost of his soldierly father, Edward I, he invaded Scotland and suffered catastrophic defeat at the Battle of Bannockburn. After twenty ruinous years, betrayed and abandoned by most of his nobles and by his wife and her lover, Edward was imprisoned in Berkeley Castle and murdered - the first English king since the Norman Conquest to be deposed.

Richard III Michael Hicks 2019-11-26 "The definitive biography and assessment of the wily and formidable prince who unexpectedly became monarch-the most infamous king in British history. The reign of Richard III, the last Yorkist king and the final monarch of the Plantagenet dynasty, marked a turning point in British history. But despite his lasting legacy, Richard only ruled as king for the final two years of his life. While much attention has been given to his short reign, Michael Hicks explores the whole of Richard's fascinating life and traces the unfolding of his character and career from his early years as the son of a duke to his violent death at the battle of Bosworth. Hicks explores how Richard-villainized for his imprisonment and probable killing of the princes-applied his experience to overcome numerous setbacks and adversaries. Richard proves a complex, conflicted individual whose Machiavellian tact and strategic foresight won him a kingdom. He was a reformer who planned big changes, but lost the opportunity to fulfill them and to retain his crown."--Provided by publisher.

Henry VIII (Penguin Monarchs) John Guy 2014-12-04 Charismatic, insatiable and cruel, Henry VIII was, as John Guy shows, a king who became mesmerized by his own legend - and in

the process destroyed and remade England. Said to be a 'pillager of the commonwealth', this most instantly recognizable of kings remains a figure of extreme contradictions: magnificent and vengeful; a devout traditionalist who oversaw a cataclysmic rupture with the church in Rome; a talented, towering figure who nevertheless could not bear to meet people's eyes when he talked to them. In this revealing new account, John Guy looks behind the mask into Henry's mind to explore how he understood the world and his place in it - from his isolated upbringing and the blazing glory of his accession, to his desperate quest for fame and an heir and the terrifying paranoia of his last, agonising, 54-inch-waisted years.

Elizabeth I (Penguin Monarchs) Helen Castor 2018-03-01 Part of the Penguin Monarchs series: short, fresh, expert accounts of England's rulers in a collectible format In the popular imagination, as in her portraits, Elizabeth I is the image of monarchical power. The Virgin Queen ruled over a Golden Age: the Spanish Armada was defeated and England's enemies scattered; English explorers reached almost to the ends of the earth; a new Church of England rose from the ashes of past conflict, and the English Renaissance bloomed in the genius of Shakespeare, Spenser and Sidney. But the image is also armour. In this illuminating new account of Elizabeth's reign, Helen Castor shows how England's iconic queen was shaped by profound and enduring insecurity-an insecurity which was both a matter of practical political reality and personal psychology. From her precarious upbringing at the whim of a brutal, capricious father and her perilous accession after his death, to the religious division that marred her state and the failure to marry that threatened her line, Elizabeth lived under constant threat. But, facing down her enemies with a compellingly inscrutable public persona, the last and greatest of the Tudor monarchs would become a timeless, fearless queen.

Henry VI (Penguin Monarchs) James Ross 2016-12-29 Henry VI, son of the all-conquering Henry V, was one of the least able and least successful of English kings. His long reign, which started when he was only nine months old, ended in catastrophe, with the loss of England's territories in France and a bankrupt England's

long decline into civil war: the wars of the Roses. Yet, failure though Henry undoubtedly was, he remains an enigma. Was he always, as he became in the last disastrous years of his rule, a holy fool, simple-minded to the point of insanity and prey to the ambitions of others? Or was he more active and, as some have suggested, actively malign? In this groundbreaking new portrait, James Ross shows a king whose priorities diverged sharply from what England expected of its monarchs, and whose fitful engagement with government was directly, though not solely, responsible for the disasters that engulfed the kingdom during his reign.

Richard II Laura Ashe 2016-01-28 A startling, subversive novel about a teenage girl who has lost everything and will burn anything. Fourteen-year-old Lucia is a young narrator whose voice will long ring in your ears. She is angry with almost everyone, especially people who tell her what to do. She follows the one rule that makes any sense to her: Don't Do Things You Aren't Proud Of. Orphaned and living with her elderly

aunt in poverty in the converted garage of a large mansion, Lucia makes her way through the world with only a book, a Zippo lighter, and a pocket full of stolen licorice. Expelled from school, again, Lucia spends her days riding the bus to visit her mother in The Home. When Lucia discovers a secret Arson Club, she will do anything to be a part of it. Her own arson manifesto is a marvellous anarchist pamphlet, written with biting wit and striking intelligence. The voice of teenaged Lucia is a tour de force: a brilliant, wrenching cry from the heart and mind of a super-smart, funny girl who can't help telling us the truth, a riveting chronicle of family, misguided friendship, and loss. How to Set a Fire and Why is Jesse Ball's most accessible novel yet; after *Silence Once Begun* and *A Cure for Suicide*, the pyrotechnics on display here will dazzle. 'I was captivated from the first line..... Lucia belongs with all the great child truth tellers: David Copperfield, Huck Finn, Holden Caulfield..... I loved her and I loved the book, every page of it.' Peter Heller, author of *The Dog Stars* and *The Painter*
