India, Sri Lanka and the SAARC Region Lopamudra Maitra Bajpai 2020-10-29 This book examines the historical and socio-cultural connections across the SAARC region, with a special focus on the relationship between India and Sri Lanka. It investigates hitherto unexplored narratives of history, popular culture and intangible heritage in the region to identify the cultural parallels and intersections that link them together. In doing so, the volume moves away from an organised and authorised heritage discourse and encourages possibilities of new understandings and re-interpretations of cross-cultural communication and its sub-texts. Based on original ethnographic work, the book discusses themes such as cultural ties between India and Sri Lanka, exchanges between Arthur C. Clarke in Sri Lanka and Satyajit Ray in India, cultural connectivity reflected through mythology and folklore, the influence of Rabindranath Tagore on modern dance in Sri Lanka, the

introduction of railways in Sri Lanka, narrative scrolls and masked dance forms across SAARC countries, Hindi cinema as the pioneer of cultural connectivity, and women's writing across South Asia. Lucid and compelling, this book will be useful for scholars and researchers of cultural studies, South Asian studies, cultural anthropology, sociology, popular culture, cross-cultural communication, gender studies, political sociology, cultural history, diplomacy, international relations and heritage studies. It will also appeal to general readers interested in the linkages between India and Sri Lanka.

An Aesthetic Education in the Era of Globalization
Gayatri Chakravorty Spivak 2013-05-06 During the past twenty years, the world's most renowned critical theorist—the scholar who defined the field of postcolonial studies—has experienced a radical reorientation in her thinking. Finding the neat polarities of tradition and modernity, colonial and postcolonial, no longer sufficient for interpreting the globalized present, she turns elsewhere to make her central argument: that aesthetic education is the last available instrument for implementing global justice and democracy. Spivak's unwillingness to sacrifice the ethical in the name of the aesthetic, or to sacrifice the aesthetic in grappling with the political, makes her task formidable. As she wrestles with these fraught relationships, she rewrites Friedrich Schiller's concept of play as double bind, reading Gregory Bateson with Gramsci as she negotiates Immanuel Kant, while in dialogue with her teacher Paul de Man. Among the concerns Spivak addresses is this: Are we ready to forfeit the wealth of the world's languages in the name of global communication? "Even a good globalization (the failed dream of socialism) requires the uniformity which the diversity of mother-tongues must challenge," Spivak writes. "The tower of Babel is our refuge." In essays on theory, translation, Marxism, gender, and world literature, and on writers such as Assia Djebar, J. M. Coetzee, and Rabindranath Tagore, Spivak argues for the social urgency of the humanities and renews the case for

literary studies, imprisoned in the corporate university. "Perhaps," she writes, "the literary can still do something."

Charlotte's Web E. B. White 2015-03-17 Don't miss one of America's top 100 most-loved novels, selected by PBS's The Great American Read. This beloved book by E. B. They also express the love of a girl named Fern, who saved Wilbur's life when he was born the runt of his litter. E. B. White's Newbery Honor Book is a tender novel of friendship, love, life, and death that will continue to be enjoyed by generations to come. It contains illustrations by Garth Williams, the acclaimed illustrator of E. B. White's *Stuart Little* and Laura Ingalls Wilder's *Little House* series, among many other books. Wild Music Maria Sonevytsky 2019-10-02 What are the uses of musical exoticism? In *Wild Music*, Maria Sonevytsky tracks vernacular Ukrainian discourses of "wildness" as they manifested in popular music during a volatile decade of Ukrainian political history bracketed by two revolutions. From the Eurovision Song Contest to reality TV, from Indigenous radio to the revolution stage, Sonevytsky assesses how these practices exhibit and re-imagine Ukrainian tradition and culture. As the rise of global populism forces us to confront the category of state sovereignty anew, Sonevytsky proposes innovative paradigms for thinking through the creative practices that constitute sovereignty, citizenship, and nationalism.

How Buddhism Began Richard F. Gombrich 2006-03-07

Downloaded from batchgoods.com on August 13, 2022 by guest

Written by one of the world's top scholars in the field of Pali Buddhism, this new and updated edition of *How Buddhism Began*, discusses various important doctrines and themes in early Buddhism. It takes 'early Buddhism' to be that reflected in the Pali canon, and to some extent assumes that these doctrines reflect the teachings of the Buddha himself. Two themes predominate. Firstly, the author argues that we cannot understand the Buddha unless we understand that he was debating with other religious teachers, notably Brahmins. The other main theme concerns metaphor, allegory and literalism. This accessible, well-written book is mandatory reading for all serious students of Buddhism.

The Politics and Poetics of Authenticity Harshana Rambukwella 2018-07-02 What is the role of cultural authenticity in the making of nations? Much scholarly and popular commentary on nationalism dismisses authenticity as a romantic fantasy or, worse, a deliberately constructed mythology used for political manipulation. *The Politics and Poetics of Authenticity* places authenticity at the heart of Sinhala nationalism in late nineteenth and twentieth-century Sri Lanka. It argues that the passion for the 'real' or the 'authentic' has played a significant role in shaping nationalist thinking and argues for an empathetic yet critical engagement with the idea of authenticity. Through a series of fine-grained and historically grounded analyses of the writings of individual figures central to the making of Sinhala nationalist ideology the book demonstrates authenticity's rich and varied presence in Sri Lankan public life and its key role in understanding postcolonial nationalism in Sri Lanka and elsewhere in South Asia and the world. It also explores how notions of authenticity shape certain strands of postcolonial criticism and offers a way of questioning the taken-for-granted nature of the nation as a unit of analysis but at the same time critically explore the deep imprint of nations and nationalisms on people's lives.

The Elusive Quest for Growth William R. Easterly 2002-08-02 Why economists' attempts to help poorer countries improve their economic well-being have failed. Since the end of World War II, economists have tried to figure out how poor countries in the tropics could attain standards of living approaching those of countries in Europe and North America. Attempted remedies have included providing foreign aid, investing in machines, fostering education, controlling population growth, and making aid loans as well as forgiving those loans on condition of reforms. None of these solutions has delivered as promised. The problem is not the failure of economics, William Easterly argues, but the failure to apply economic principles to practical policy work. In this book Easterly shows how these solutions all violate the basic principle of economics, that people--private individuals and businesses, government officials, even aid donors--respond to incentives. Easterly first discusses the importance of growth. He then analyzes the development solutions that have

failed. Finally, he suggests alternative approaches to the problem. Written in an accessible, at times irreverent, style, Easterly's book combines modern growth theory with anecdotes from his fieldwork for the World Bank.

The Gospel of the Flying Spaghetti Monster Bobby Henderson 2010-04-07 Can I get a "ramen" from the congregation?! Behold the Church of the Flying Spaghetti Monster (FSM), today's fastest growing carbohydrate-based religion. According to church founder Bobby Henderson, the universe and all life within it were created by a mystical and divine being: the Flying Spaghetti Monster. What drives the FSM's devout followers, a.k.a. Pastafarians? Some say it's the assuring touch from the FSM's "noodly appendage." Then there are those who love the worship service, which is conducted in pirate talk and attended by congregants in dashing buccaneer garb. Still others are drawn to the Church's flimsy moral standards, religious holidays every Friday, or the fact that Pastafarian heaven is way cooler: Does your heaven have a Stripper Factory and a Beer Volcano? Intelligent Design has finally met its match—and it has nothing to do with apes or the Olive Garden of Eden. Within these pages, Bobby Henderson outlines the true facts—dispelling such malicious myths as evolution ("only a theory"), science ("only a lot of theories"), and whether we're really descended from apes

(fact: Humans share 95 percent of their DNA with chimpanzees, but they share 99.9 percent with pirates!) See what impressively credentialed top scientists have to say: "If Intelligent Design is taught in schools, equal time should be given to the FSM theory and the non-FSM theory." -Professor Douglas Shaw, Ph.D. "Do not be hypocritical. Allow equal time for other alternative 'theories' like FSMism, which is by far the tastier choice." -J. Simon, Ph.D. "In my scientific opinion, when comparing the two theories, FSM theory seems to be more valid than classic ID theory." -Afshin Beheshti, Ph.D. Read the book and decide for yourself!
